AUDITOR-CONTROLLER

The Honorable Board of Supervisors
County of Imperial
County Administration Center
940 Main Street
El Centro, CA 92243

Honorable Board Members:

The Annual Financial report of the County of Imperial for the fiscal year ended June 30, 2015, is submitted herewith in accordance with Section 25253 of the Government Code of the State of California.

The accompanying financial statements were prepared in accordance with accounting standards generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board, the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds and account groups, and that all disclosures necessary to enable the reader to gain a full understanding of the County's financial activities have been included.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations".

The Annual Financial report is presented in four sections: introduction, management's discussion and analysis, financial statements and federal schedules. The introductory section includes this transmittal letter, the County's organizational chart and a list of principal County officials. The financial section includes the General Purpose Financial Statements, as well as, the Independent Auditors' Report on the financial statements and schedules. The federal section contains information related to the Single Audit, including the Schedule of Expenditures of Federal Awards, findings and questioned costs, and the Independent Auditors' Report on Compliance and Internal Control.

THE REPORTING ENTITY AND ITS SERVICES

The County of Imperial, located in Southern California, on the Mexican border, was established by an act of the State Legislature on August 7, 1907, forming the County from the eastern part of San Diego County. The County is a general law county divided in to five supervisorial districts on the basis of registered population. The County encompasses an area of over 4,597 square miles and includes 7 incorporated cities. The County ranks as one of the top ten agricultural counties in California. It is ranked 31 of 58 counties in terms of population.

The County provides a wide range of services to its residents including law enforcement, medical and health services, education, senior citizen assistance, roads, library services, judicial institutions including support services, airport service, cultural and environmental services, parks and a variety of public assistance programs. Special districts and County service areas provide services to remote geographical areas and communities. These services include fire protection, parks, flood control, water, sewer, street lighting and roads.

The accompanying General Purpose Financial Statements include all organizations, functions and activities of the County for which the County Board of Supervisors is financially accountable. Also included are numerous self-governed school and special districts for which the County acts as depository. The financial reporting for these entities, which are governed and act independently of the County of Imperial, is limited to reporting, as Agency Funds, the total amount of cash and investments and other assets collected for, disbursed by, and held for, these entities.

FINANCIAL INFORMATION

The County's internal accounting control system exists to provide reasonable, but not absolute, assurance that assets are safeguarded against loss or unauthorized disposition and to provide reliable records for preparing financial statements and maintaining accountability for assets. The County's internal audit staff actively participates in evaluating and upgrading the internal accounting control system.

As a recipient of Federal and State financial assistance, the County also is responsible for ensuring that an adequate internal control structure is in place to assure compliance with applicable laws and regulations related to public assistance programs. This internal control structure is subject to periodic evaluation by management and the internal audit staff.

The County uses the modified accrual basis of accounting for its Governmental, Debt Service and Fiduciary Funds. Revenues are recognized when they become measurable and available to finance operations of the year. Expenditures are generally recognized when the related fund liability is incurred except for interest on long-term obligations, which is recognized when payment is due. The accrual basis of accounting is used for all Proprietary Fund types. Revenues are recognized when they are earned and become measurable and expenses are recorded when they are incurred.

The objective of budgetary control is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the County's Board of Supervisors. Budgets are adopted for the General Fund, certain Special Revenue Funds, the County Service Areas Debt Service Funds and certain Capital Project Funds. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is maintained at the expenditure object level. Encumbrance accounting is utilized to assure effective budgetary control; purchase orders and contracts are reviewed and a determination is made that valid and sufficient appropriations exist for payment for ordered goods and services. Encumbrances outstanding at year-end do not constitute expenditures or liabilities. Unencumbered appropriations lapse at year-end and encumbrances outstanding at that time are reported as reservations of fund balance for subsequent year expenditures.

General Government Functions - The General Fund is used to account for all activities of a general nature including administration, legislation, public protection, health and welfare, parks and recreation.

Proprietary Operations-Proprietary Funds are used to account for internal service and enterprise activities.

Internal Service Funds include the County's motor vehicle fleet, central duplicating and various insurance loss reserves. The intent is for these functions to operate on a cost recovery basis and provide funds for the replacement of assets. Operating deficits will be recovered through increased charges in subsequent years.

Enterprise Funds consist chiefly of Imperial Airport, The State Transit Program and Landfill Closure/Postclosure fund. These are funded by user charges; deficiencies as a result of operations should be recovered through increased charges in subsequent years.

Fiduciary Operations-The County maintains a significant number of funds to carry out its fiduciary responsibilities. These include funds for school districts, autonomous special districts and taxes.

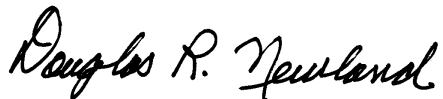

INDEPENDENT AUDIT

State statutes require an annual audit by a Certified Public Accountant. The firm of Hutchinson and Bloodgood LLP has audited the County's financial statements. In addition to meeting the requirements of State law, the audit was also designed to comply with the Federal Single Audit Act of 1996 and OMB Circular A-133. The auditors' reports on these matters are included in these financial statements.

ACKNOWLEDGEMENTS

I wish to express my appreciation to the entire Auditor/Controller staff, the County departments which participated and our independent auditors, Hutchinson and Bloodgood LLP, for their assistance in the report preparation.

Respectfully submitted,

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Imperial, CA, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Imperial, CA, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information on pages 10 through 18, the Imperial County Employees' Retirement System Schedule of the County's Proportionate Share of the Net Pension Liability and the Imperial County Employees' Retirement System Schedule of the County's Contributions on page 56, the Schedule of Funding Progress for the County of Imperial's Other Post Employment Benefit (OPEB) on page 57, Statement of Revenue, Expenditures and Changes in Fund Balances – General Fund on page 59, and the respective budgetary comparison on page 60, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Imperial's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required By *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2016 on our consideration of the County of Imperial's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Imperial's internal control over financial reporting and compliance.

County of Imperial
Management's Discussion and Analysis
For the Year Ended June 30, 2015

The discussion and analysis of the financial performance of the County of Imperial (County) provides an overview of the County's financial activities for the year ended June 30, 2015. The intent of this discussion and analysis is to look at the County's financial performance as a whole users of these financial statements should read this discussion and analysis in conjunction with the transmittal letter at the front of this report and the County's basic financial statements following this section to enhance their understanding of the County's financial performance. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the 2014-2015 fiscal year by \$122,144 (*Net Position*). (\$48,405) is *Unrestricted Net Position*. Of this amount \$93,460 may be used to meet the County's ongoing obligations to citizens and the creditors, (\$45,055) is the obligation for Pension Bonds and \$53,094 (*Restricted Net Position*) may be used for the County's ongoing obligations with external restrictions. (See detail at Table 1).
- The County's net position decreased by (\$87,346) during the current fiscal year. Governmental activities decreased the County's net position by (\$90,355); and, business-type activities net position increased by \$3,009.
- As of June 30, 2015, the County's governmental funds reported total ending fund balances of \$112,070, a decrease of 9.73% in comparison with the prior year. Approximately 8.95% or (\$10,041) is unavailable for spending (*Unassigned fund balance*). See further discussion in Financial Analysis of the County's Funds on pages 11-15.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$13,479 or 5.80% of total General Fund expenditures.
- The County's total long-term debt decreased in the amount of (\$2,796) in comparison with the prior year. Compensated absences increased by \$287 and existing long-term debt decreased (\$3,083) in 2014-2015.
- The County adopted Governmental Accounting Standard Board's Statement No. 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27", and Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68".

The significant impact to the County of implementing Statement No. 68 is the reporting of the County's unfunded pension liability on the County's full accrual basis of accounting government-wide financial statements. There are also new note disclosure requirements required by the Statement. The measurement date for the pension liability is as of June 30, 2014. Activity occurring during fiscal year 2014-15 are reported as deferred outflows of resources in accordance with Statement No. 71.

In order to implement the Statement, a prior period adjustment was made to the County's July 1, 2014 net position. This prior period adjustment decreased the County's net position by \$79,516 from \$209,490 to \$129,974. Please refer to Note 10 for more information regarding the County's retirement system.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. These statements are organized so that readers can understand the County of Imperial as a financial whole or as an entire operating entity. The County's basic financial statements are comprised of three components: 1) Government-wide financial statements; 2) Fund financial statements; and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the financial statements themselves.

Management's Discussion and Analysis (Continued)

1. Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event takes place regardless of when cash is received or paid. Thus, some revenues and expenses are reported in this statement for some items that will only result in cash inflows and outflows in future fiscal years.

Both the Statement of Net Position and the Statement of Activities distinguishes between activities that are primarily financed with taxes and intergovernmental revenues (governmental activities) and those that are intended to recover all or a significant portion of their costs through user fees and charges for services (business-type activities). The County's governmental activities include general government, public protection, public ways and facilities, health and sanitation, public assistance, and education. The business-type activities of the County include the operation of the Imperial Airport, Closure/Postclosure (Landfill) and other County Service Areas (CSAs).

Component units are included in our basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. An example of the County's blended component unit is the Imperial County Employees' Retirement Association (ICERA). The Children and Families First Commission (the Commission) is reported as a discretely presented component unit because there is some financial accountability by the Commission to the County Board. IV Parks, Inc. (Parks) is reported as a discretely presented component unit because there is some financial accountability by the Parks to the County Board. The Imperial County Transportation Commission (ICTC) is reported as a discretely presented component unit because there is some financial accountability by the Commission to the County Board.

The government-wide financial statements are presented on pages 18-19 of this report.

2. Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the County as a whole. A fund is a fiscal and accounting entity designated to report information about groupings of related accounts which are used to maintain control over resources that have been segregated for specific activities or attaining certain objectives in accordance with specific regulations, restrictions, or limitations. All of the County's funds can be divided into three broad categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for activities that are similar in nature to the governmental activities in the government-wide financial statements. However, unlike the government wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be used in evaluating Imperial County's near-term financing requirements and available resources.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This will allow readers to get a better understanding of the long-term impact of the government's near-term

Management's Discussion and Analysis (Continued)

financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County reports three major individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for each of the major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements located in the *Combining and Individual Fund Statements and Schedules*.

The basic governmental fund financial statements are presented on pages 20-23 of this report.

Proprietary funds are reported in two ways: enterprise funds and internal service funds. Enterprise funds are reported as functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Imperial Airport, Landfills and other County Service Areas (CSAs) operations. Internal service funds are used to account for costs internally among the County's various functions. The County uses the following internal service funds: Garage, Central Duplicating, Centralized Mail, Flood Control, Communications Services, Liability Insurance, Workers' Compensation Insurance, Unemployment Insurance, Health and Dental/Vision Benefits, Medical Malpractice, and Auto Liability. Because such functions predominantly benefit governmental rather than business-type activities, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for Imperial Airport and Closure/Postclosure (Landfills), both of which are considered to be major funds of the County. All other enterprise funds have been combined into a single aggregated column for presentation. Internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

The basic proprietary fund financial statements are presented on pages 24-26 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the county government. Although these funds are presented in the fund set of statements, they do not appear in the government-wide financial statements because the resources of fiduciary funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements are presented on pages 27-28 of this report.

3. Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in both government-wide and fund financial statements.

The notes to the financial statements are presented on pages 29-54 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$122,144 (see Table 1) at the close of the current fiscal year.

Management's Discussion and Analysis (Continued)

The largest portion of the County's net position, \$117,455 reflects its investment in capital assets (e.g. land, structures and improvements, infrastructure, vehicles, furniture and equipment, and construction in progress), less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position, \$53,094, represents resources that are subject to external restrictions on how they may be used. The major portion of the restricted net position is constrained for debt repayment. The remaining balance of total net position is (\$48,405). A key element contributing to this deficit is the implementation of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68" to present the County's proportionate share of net pension liability on the financial statement. Refer to Note 10 Retirement System for more details.

As of June 30, 2015, the County's total assets and deferred outflows of resources increased by 3.25% or \$11,400 during the current fiscal year. Deferred outflows of resources related to pension increased by \$17,326 due to the changes in net pension liability measurements used in the actuarial study.

Management's Discussion and Analysis (Continued)

Total liabilities and deferred inflows of resources for FY 2014-15 increased by 69.96% or \$98,745. Long-term liabilities increased by 56.48% or \$49,946, as a result of the County's proportionate share of the net pension liability. Deferred inflows of resources related to pension increased \$37,871 due to changes in the net pension liability measurements used in the actuarial study as required by GASB Statement No. 68.

As shown in Table 2, the County's net position increased by (\$7,830).

Management's Discussion and Analysis (Continued)

Governmental Activities

Governmental activities decreased the County's net position by (\$10,936) for the year ended June 30, 2015, thereby accounting for 129.54% total decrease in the net position of the County. Key element of this decrease was the implementation of GASB Statement Nos. 68 and 71.

- Total revenue for the County's governmental activities decreased 0.32%.
- The County's long-term debt decreased by 3.97%.
- As an arm of the state government, operating grants and contributions serve multiple programs, representing 56.79% of the County's total revenue for governmental activities, and are tied to mandated services such as public assistance, health, and mental health. These revenue sources increased 13.81% over the prior year primarily to increased funding related to mandated programs.
- Taxes and investment earnings that are generated locally provide the Board of Supervisors (Board) with most of its discretionary spending power. Property taxes and Property Tax In-Lieu decreased 5.02% due to property tax shift required by State to the school districts and decrease in assessed property values throughout the County.
- Total expenses for governmental activities increased by 13.25% with increases in all major functions with the greatest increase in general government, which increased 29.46%. This increase was primarily due to the implementation of GASB Statement Nos. 68 and 71, which increased pension related expense items not previously accounted for.
- The County recorded \$35,672 in revenue for the current fiscal year, which is classified as another item. This amount includes \$6,462 in other taxes and \$29,210 in other contributions.

Business-type Activities

Business-type activities' net position increased the County's net position by \$3,105. The main reason for this is a decrease in the estimated liability for Closure/Postclosure in the amount of (\$2,818).

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2015, The County's governmental funds reported total fund balances of \$112,070, a 9.73% decrease in comparison with the prior year. Approximately 8.95% or (\$10,041) of the total fund balances constitutes unassigned fund balance, which is unavailable to meet the County's current and future needs. The remainder of fund balance is allocated as nonspendable, restricted, committed, or assigned to indicate that it is not available for new spending because it has been committed to 1) to pay debt service \$7,116, 2) to reflect CDBG loans receivable in which the County acts as a conduit for intergovernmental loans to entities within the County \$14,961, 3) reserved for monies received from tobacco settlement endowment fund \$11,787, 4) reserved for prior year encumbrances \$1,852 and 5) a variety of other restricted purposes \$86,395.

The County's management may also designate unassigned fund balance to a particular function, project, or activity; however designated fund balance is available for appropriations at any time.

Management's Discussion and Analysis (Continued)

The General Fund is the chief operating fund of the County. At June 30, 2015, unassigned fund balance of the General Fund was \$13,479. As a measure of the General Funds' liquidity, it may be helpful to compare both unassigned fund balance and fund balance to total fund expenditures. Unassigned fund balance represents 5.80% of total General Fund expenditures, while total fund balance represents 28.90% of total General Fund expenditures.

Revenues for governmental functions totaled \$342,762 at June 30, 2015, which represents an increase of 0.59% from fiscal year 2013-2014. The largest increases in revenues were in use of money and property, which increased 135.32% and was primarily due to an increase in monies received from tobacco settlement endowment fund.

Expenditures for governmental functions totaled \$349,081 at June 30, 2015, which represents an increase of 11.92% from fiscal year 2013-14. The largest increases occurred in the Public Assistance, which increased 15.04% and General Government increased by approximately 25.45%.

Proprietary Funds

The proprietary fund provides similar information to the government-wide financial statements, but in more detail.

The net position of the enterprise funds increased by \$3,009. The main reason for this is a decrease in the estimated liability for Closure/Postclosure in the amount of (\$2,818).

The internal service funds carried \$57,269 in unrestricted net position as a result of a decrease in claims insurance liabilities. Also, a change in medical insurance design reduced costs. Claims payable were \$23,181 at June 30, 2015.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget resulted in a \$7,888 increase in appropriations that is briefly summarized as follows:

- \$2,183 increase in the County's Health and Sanitation appropriations was the result of new federal and state programs.
- \$1,218 increase in the County's Public Assistance appropriations represents increase program costs for various social services programs.
- \$1,948 increase in the County's Public Protection appropriations was the result of unanticipated grants for initiatives.
- \$2,539 of the increase in the County's appropriations was the result of unanticipated grants and contributions from other governments. The remaining portion consisted of increases in appropriations for normal operations in the remaining forty-eight budget units that comprise the General Fund.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2015, the County's investment in capital assets for its governmental and business-type activities amounted to \$126,076 (net of accumulated depreciation). The investments in capital assets are comprised of land, infrastructure, structures and improvements, furniture and equipment, vehicles, and construction in progress. The County, according to GASB 34 guidelines, has elected retroactively to include all infrastructure assets dating back to 1980.

The major capital events during the current fiscal year include the following:

- A variety of small construction and rehabilitation projects were started during the current fiscal year: road paving projects, and several others remodeling projects.

Long-Term Debt

At the end of the current fiscal year, the County had total long-term debt outstanding of \$67,605. This amount is comprised of \$8,085 of certificates of participation, \$45,055 represents debt outstanding for the pension obligation bond. \$13,389 in earned compensated absences, \$540 State of California Child Support claim, and \$536 capital lease obligations.

Management's Discussion and Analysis (Continued)

DEFERRED OUTFLOWS / INFLOWS OF RESOURCES

Deferred Outflows of Resources

Deferred outflows of resources are new to the County's Statement of Net Position for this fiscal year. This classification balance, although similar to "assets," is set apart because these items do not meet the technical definition of being a County asset on the date of these financial statements. In other words, these amounts are not available to pay liabilities in the way assets are available. When all the recognition criteria are met, the deferred outflows of resources will become an expense/expenditure.

The only deferred outflow of resources reported by the County is related to the implementation of GASB Statement No. 68 and GASB Statement No. 71 for pension liability reporting.

Deferred Inflows of Resources

Deferred inflows of resources are the counterpart to deferred outflows of resources on the Statement of Net Position. Deferred inflows of resources are not technically liabilities of the County as of the date of the financial statements. When all the recognition criteria are met, the deferred inflows of resources will become revenue or an increase to net position.

The only deferred inflow of resources reported by the County is related to pensions which represents a net amount attributable to the various components that impact pension changes, and can include investment changes amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The County currently faces a less than favorable economic environment. Due to the County being heavily dependent on agriculture, it experiences chronically high unemployment, which puts pressure on the County to provide social and medical services.

The County's general revenues, sometimes referred to as discretionary revenues, continue to experience little to no growth. At the same time, the portion of the County's budget that rely on these revenues continue to experience increased costs due to cost of living and medical insurance increases.

The State's budget cuts for local governments remain the major determining factors in determining the County's budget for fiscal year 2015-16 and beyond, as the County is again required to contribute property tax revenues to the State budget in 2015-16. The State has historically reduced city and county revenues in order to help balance their own budget.

COUNTY OF IMPERIAL
Reconciliation of the Statement of Revenues, Expenditures, and Changes in
Fund Balances of Government Funds to the Statement of Activities
Year Ended June 30, 2015
(amounts expressed in thousands)

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances-total governmental funds \$ (12,075)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$7,500 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlays	\$	12,703	
Loss on disposal of capital assets		(17,337)	
Proceeds from sales of capital assets		23	
Depreciation expense		(8,113)	(12,723)

---------------------------------------------------------	--------

Long-term liabilities, including bonds payable, increased during the year in the amount of 812,712.	2,955
-----------------------------------------------------------------------------------------------------	-------

In the statement of activities, certain operating expenses -- compensated absences (vacations, sick leave, and comptime earned) -- are measured by the amounts earned during the year.

In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, compensated absences increased by \$984,541.	985
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

Government funds report county pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

County pension contributions	(12,338,062)
Cost of benefits earned net of employee contributions	15,694,302

Internal service funds are used by the County to charge the costs of industrial insurance, printing, and warehouse services to individual funds. The net revenue of the internal service funds is reported with governmental activities.

County of Imperial
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015
(Dollars in Thousands)

Note 1 – The Financial Reporting Entity

(a) Reporting Entity

The County of Imperial, California (County), is a legal subdivision of the State of California charged with governmental powers. The County's powers are exercised through a Board of Supervisors (Board), which is the governing body of the County. The Board is responsible for the legislative and executive control of the County. The County provides various services on a countywide basis including law and justice, education, detention, social, health, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

The governmental reporting entity consists of the County (Primary Government) and its component units. Component units are legally separate organizations for which the Board is financially accountable or other organizations whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County.

The basic financial statements include both blended and discretely presented component units. The blended component units are, although legally separate entities, in substance part of the County's operations and, therefore, data from these units are combined with data of the primary government. The discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the County's Board. The financial statements of the individual component units may be obtained by writing to the County of Imperial, Controller's Office, 940 Main Street, El Centro, California 92243.

(b) Blended Component Units

Blended component units are, in substance, part of the County's operations and their financial data are combined with data of the primary government. The following organizations are included in the County's financial statements as blended component units:

Imperial County Employees' Retirement System (ICERS) is reported as a Pension Trust Fund in the financial statements because it is an integral part of the County. A separate financial report can be reviewed at the Imperial County Treasurers/Retirement Office.

Special Districts and Schools are reported as trust funds because they are an integral part of the County. A separate financial report can be reviewed at the Auditor-Controller's Office.

(c) Discretely Presented Component Units

The Children and Families First Commission (Commission) was established in March 1999 under the authority of the California Children and Families First Act of 1998 and sections 130100, et seq. of the Health and Safety Code. The County Board appointed all members of the Commission. The Board can remove appointed members at will. The Commission accounts for receipts and disbursements of California Children and First Families Trust Fund allocations and

appropriations to the Commission. The Commission is a discretely presented component unit as the Commission's governing body is not substantially the same as that of the County and the Commission does not provide services entirely or almost entirely to the County. The Commission issues a stand-alone financial report, which may be obtained by contacting the Commission at 1225 Main Street, Suite B, El Centro, CA 92243.

I.V. Parks, Inc. was established in January, 2008 under the authority of the Imperial County Parks and Recreation Commission. The purpose of this corporation is to provide additional funds for the Imperial County Parks and Recreation Commission to enhance the parks and recreation programs of Imperial County, California, and to carry on other charitable activities associated with this goal as allowed by law. Additional information may be obtained by contacting the Commission at 801 West Main Street, El Centro, CA 92243.

The Imperial County Transportation Commission (ICTC) was established under Senate Bill 607 (SB 607 - Ducheny) which was approved by the California Legislature and Governor Arnold Schwarzenegger in 2009. As a county transportation commission, ICTC provides leadership and oversight in the transportation planning and programming process. The ICTC guides the development of the Regional Transportation Plan for the Imperial region and its Regional, State and Federal transportation improvement programs (TIPs) and their updates, including, but not limited to: the distribution and oversight of Local Transportation Fund monies; the preparation and submittal of grant applications for transportation related funds; approves the allocation and apportionments for various funds including Transportation Development Act funds; the planning, programming and administration of regional transit services; and, encourages active citizen participation in the development and implementation of various transportation-related plans and programs. Additional information may be obtained by contacting the Commission at 1405 N. Imperial Ave. Suite 1, El Centro, CA 92243.

Note 2 – Summary of Significant Accounting Policies

(a) Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component unit. Governmental activities, which normally are supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely, to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When both restricted and unrestricted net assets are available, restricted resources are used only after the unrestricted resources are depleted.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category – *governmental, proprietary and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds; each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Proprietary funds distinguish *operating* revenues, such as charges for services, results from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating* revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The County reports only one major governmental fund:

- The *General Fund* is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the General Fund includes activities such as public protection, public ways and facilities, health and sanitation, public assistance, and education.
- Although the *Special Revenue Funds* are not considered major funds, the County has chosen to present them in a separate column for the benefit of the reader.

The County reports the following major enterprise funds:

- The *Imperial Airport* accounts for operations, which include the airport's physical structure, property and leases and to provide the public with adequate, convenient and safe services associated with aviation. This includes providing for all forms of commercial and private transportation (air and repair, flying instruction, aircraft rental, sales, charter, fuel sales, and aircraft storage). The department also provides safety and emergency services, aviation agri-business, Federal Aviation Administration facilities (Flight Service Station), and public interest conveniences such as restaurants, motel and ground transportation.
- The *Solid Waste Closure/Postclosure* accounts for funds pursuant to State Law requiring funds to cover the estimated cost of solid waste closure and post-closure activities. Each County operated site must have a plan to specifically address the physical requirements, as closure becomes necessary and the post-closure ongoing monitoring requirements.

The County reports the following additional fund types:

Internal Service Funds account for the activities of the fleet maintenance, flood control, centralized printing, centralized mailing, and centralized telecommunications. In addition, the County's Risk Management accounts for self-insurance programs – workers' compensation, liability, unemployment, employee health/dental/vision benefits, medical malpractice and auto on a cost-reimbursement basis.

The *Pension Trust Fund* accumulates contributions from the County, its employees and other participating employers. Disbursements are made from the fund for retirement, disability and death benefits (based on a defined benefit formula) and administrative expenses.

The *Investment Trust Funds* account for the assets of legally separate entities that deposit cash with the County Treasurer. These entities include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass through funds for tax collections for cities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.

The *Agency Funds* account for assets held by the County as an agent for various local governments and for individuals.

(b) Basis of Accounting

The government-wide proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligible requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

For its business-type activities and enterprise funds, the County has elected under GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board or any Accounting Research Bulletins issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The GASB periodically updates its codification of existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes (GAAP) for governments units.

(c) Cash and Cash Equivalents

Cash is considered to be cash on hand, cash in bank and imprest cash. All short-term investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, they have an original maturity of three months or less.

County of Imperial
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

(d) Investments

Statutes authorize the County to invest its surplus cash (excluding ICERS) in obligations of the U.S. Treasury, agencies and instrumentalities, corporate bonds, rated P-1 by Standard & Poor's Corporation or A-1 by Moody's Investor Services, bankers acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund. Gains and losses are recognized based upon the specific identification method. All pooled investments are reported at book value. ICERS investments are made subject to guidelines of the investment plan approved by the Retirement Board.

(e) Inventories

Inventories are valued at cost, which is determined on a first-in, first-out basis. Inventory in the General and Special Revenues Funds consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are purchased.

(f) Property Taxes

The County levies property taxes as of September 1, on property values certified on July 1. Secured property tax payments are due in two equal installments. The first is generally due November 1 and delinquent with penalties after December 10, and the second is generally due on February 1 and delinquent with penalties after April 10. Secured property taxes become a lien on the property on January 1. Property taxes on the unsecured roll are due upon receipt of the tax bill and become delinquent if unpaid on August 31.

All jurisdictions within California derive their taxing authority from the State of California and various legislative provisions contained in the State of Government Codes and Revenue Taxation Codes. Pursuant to Article XIII A (known as Proposition 13) of the State of California Constitution, the County is permitted to levy a maximum tax of 1% of full cash value. For fiscal year 2014-15, the County received \$21,306 in property taxes that were used to finance general government services.

(g) Capital Assets

Capital assets, including infrastructure, are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Contributed fixed assets are valued at their estimated fair market value on the date contributed. Capital assets include public domain (infrastructure) general fixed assets, which consist of certain improvements including roads, bridges, pavements in progress, and right of way. The County defines capital assets as assets with initial, individual costs of more than \$8 and an estimated useful life in excess of one year. Capital assets (assets under capital leases) used in operations are depreciated or amortized using the straight-line method over the lesser of the capital lease period or their estimated useful lives in the government-wide statements and proprietary funds.

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of fixed assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

County of Imperial
Notes to the Basic Financial Statements

The estimated useful lives are as follows:

Buildings	40 years
Equipment	5 – 15 years
Office Furniture	5 years
Vehicles	70,000 – 100,000 miles
Infrastructure	20 – 50 years

(h) Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, “*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*,” and GASB Statement No. 65, “*Items Previously Reported as Asset and Liabilities*,” the County recognizes deferred outflows and inflows of resources in the governmental fund, proprietary fund, and fiduciary fund statements.

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until that time. The county has two items which qualify for reporting in this category, which are the changes of assumptions and changes in proportion and differences between employer’s contributions and the proportionate share of contributions calculated by actuarial study. Deferred outflows of resources that are reported in the proprietary funds are included in the Government-wide Statement of Net Position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow or resources (revenue) until that time. The county has two items that qualify for reporting in this category, which are the net difference between projected and actual earnings on investments of the pension plan, and the difference between expected and actual experience in the Total Pension Liability. Deferred inflows of resources that are reported in the proprietary funds are included in the Government-wide Statement of Net Position.

The table below details out all deferred outflows/inflows of resources related to pension. Please refer to Note 10, Employees’ Retirement System, for further information.

	Government-wide Activities	Fiduciary Activities	Total

(i) Compensated Absences (Accrued Vacation, Sick Leave and Compensatory Time)

Unused vacation leave may be accumulated up to a specified maximum and is paid at the time of termination from County employment. The County is not obligated to pay for unused sick leave if an employee terminates prior to retirement. However, if the employee, with less than 10 years of service, elects to leave their funds on deposit with the retirement system (deferred retirement), the accumulated sick leave hours will be applied toward their retirement service credit. Upon retirement, employees have the option of 1) being compensated for 15% of the employee's sick leave hours, or 2) applying all the employee's accumulated sick leave hours as retirement service credit.

The County accrues for compensated absences in the government-wide and proprietary fund financial statement for which they are liable to make a payment directly.

(j) Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(k) Adoption of Government Accounting Standards Board Statements

The County adopted the provisions of GASB Statement No. 61, "The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34." The adaption of this statement had no effect on previously reported amounts.

(l) Effects of New Pronouncements

The following Governmental Accounting Standards Board (GASB) Statements have been implemented in the current financial statements:

- Statement No. 68 – *"Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27."* The provisions of this statement are effective for financial statements for fiscal years beginning after June 15, 2014.
- Statement No. 69 – *"Government Combinations and Disposals of Government Operations."* The provisions of this statement are effective for financial statements for periods beginning after December 15, 2013.
- Statement No. 71 – *"Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68."* The provisions of this statement are effective for financial statements for fiscal years beginning after June 15, 2014.

GASB Statements Nos. 72-76 listed below will be implemented in future financial statements:

- Statement No. 72 – *"Fair Value Measurement and Application."* The provisions of this statement are effective for financial statements for reporting periods beginning after June 15, 2015.

- Statement No. 73 – *“Accounting and Financial Reporting for Pension and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.”* The provisions of this statement are effective for fiscal years beginning after June 15, 2015 – except for those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of GASB Statement No.68, which are effective for fiscal years beginning after June 15, 2016.
- Statement No. 74 – *“Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.”* The provisions of this statement are effective for fiscal years beginning after June 15, 2016.
- Statement No. 75 – *“Accounting and Financial Reporting for Postemployment Benefits Other Than Pension Plans.”* The provisions of this statement are effective for fiscal years beginning after June 15, 2017.
- Statement No. 76 – *“The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.”* The provisions of this statement are effective for reporting periods beginning after June 15, 2015.

Note 3 – Cash and Investments

The County maintains a Cash and Investment Pool (Pool) that is available for use by all funds. The Pension Trust participates in the Pool, but the majority of their cash and investments are held separately from other County funds. Interest earned on the investment pool is distributed to the participating funds using a formula based on the average daily balance of each fund.

Total County cash and investments are as follows:

Cash:

Cash on hand	\$ 2
Imprest Cash	79
Checks for deposit	3,385
Outstanding warrants adj	<u>2,350</u>
Total cash	<u>5,816</u>

Deposits

At June 30, 2015, the carrying amount of the County's cash deposits was \$123,039 and the bank balance for deposits maintained in various financial institutions amounted to \$121,214. Of the bank balance, \$6,925 was covered by federal depository insurance and the balance was collateralized as required by state law.

Under the California Government Code, a financial institution is required to secure deposits in excess of \$100 made by state or local governmental units by pledging securities held in the form of an undivided collateral pool. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

Investments

The County's investments are categorized below to give an indication of the level of custodial credit risk assumed by the County as of June 30, 2015. Category 1 includes investments that are insured or registered, or held by the County or its agent in the County's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the County's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or its trust department or agent but not in the County's name. The County does not have any category 2 or 3 investments at June 30, 2015.

At June 30, 2015, the County's investment balances were as follows:

	Category			Carrying	Fair

During the course of normal operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various County operations, re-allocations of special revenues, and debt service transfers to pay principal and interest payments on pension obligation bonds. All inter-fund transfers between individual government funds have been eliminated on the government-wide statements.

2010 Certificates of Participation

On March 1, 2010, the County issued its \$9,465,000 Certificates of Participation 2010 Series A, for the Landfill Remediation and Closure Funding Program.

The proceeds of the County of Imperial Certificates of Participation, 2010 Series A (Landfill Remediation and Closure Funding Program), together with other lawfully available funds of the County of Imperial, California, will be used (i) to finance a portion of the County's landfill closures and the construction and/or acquisition of certain improvements; (ii) to purchase a surety bond for deposit in the Reserve Fund with respect to the Certificates; and (iii) to pay costs in connection with execution and delivery of the Certificates. The Certificates will represent direct, undivided fractional interest in certain Lease Payments to be made by the County pursuant to a Lease Agreement, dated March 1, 2010, by and between the Imperial County Facilities Corporation and the County.

Interest with respect to the Certificates is payable on each February 15 and August 15, commencing August 15, 2010. The Certificates will be initially registered in the name of Code & Co., as nominee of the Depository Trust Company, New York ("DTC"). DTC will act as securities depository of the Certificates. The Certificates are subject to prepayment prior to their stated maturity. The debt service requirements on the certificates to maturity, are as follows:

Taxable Pension Funding Bonds 1997

On November 19, 1997, the County issued \$35,175,000 of taxable pension funding bonds to fund the County's unfunded accrued actuarial liability due the Imperial County Employees' Retirement System ("the System"). The payment of this liability will provide the System additional funds for investment.

The bonds have a stated interest rate from 6.100% to 6.375% and are payable over a period of 24 years maturing in 2021. The bonds are not subject to optional redemption prior to their stated maturity date. The bond's debt service to maturity is as follows:

<u>Year Ending June 30,</u>	<u>Principle</u>	<u>Interest</u>	<u>Total Payment</u>

Note 9 – Landfill Closure and Postclosure Costs

State and federal laws and regulations require that the County of Imperial place a final cover on its landfills when they are closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfills no longer accept waste. The recognition of these landfills closure and postclosure care costs are based on the amount of the landfills used during the year. The estimated liability for landfill closure and postclosure care costs has a balance of \$15,217 as of June 30, 2015 which is based on an average of 86.15% usage (filled) of the ten landfills operated by the County. It is estimated that an additional \$66,889 will be recognized as closure and postclosure care expenses between the date of the balance sheet and the date that last landfill is expected to be filled to capacity (2109). The estimated total current cost of the landfill closure and postclosure care (\$29,738) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2015. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

County of Imperial
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015
(Dollars in Thousands)

The County of Imperial is required by state and federal laws to make annual contributions to finance closure and postclosure care. The County is in compliance with these requirements and at June 30, 2015, \$6,032 was held in an Enterprise Fund for these purposes. Any future inflation costs and additional costs that might arise from changes in postclosure requirements (due to changes in technology or more rigorous environmental regulations, for example) may need to be covered by charges to future landfill users, taxpayers, or both.

Note 10 – Employees’ Retirement System

Plan Description

The Imperial County Employees’ Retirement System (ICERS) was established by the County of Imperial in 1951. ICERS is administered by the Board of Retirement and governed by the County Employees’ Retirement Law of 1937 (California Government Code Section 31450 et. seq.) ICERS is a cost-sharing multiple employer public employee retirement system whose main function is to provide service retirement, disability, death and survivor benefits to the Safety and General members employed by the County of Imperial. ICERS also provides retirement benefits to the employee members of the Imperial County Courts, LAFCO, and ICTC.

The management of ICERS is vested with the Imperial County Board of Retirement. The Board consists of nine members and two alternates. The County Treasurer is a member of the Board of Retirement by law. Four members are appointed by the Board of Supervisors, one of whom may be a County Supervisor. Two members are elected by the General membership; one member and one alternate are elected by the Safety membership, one member and one alternate are elected by the retired members of the System. All members of the Board of Retirement serve terms of three years except for the County Treasurer whose term runs concurrent with her term as County Treasurer.

Benefits Provided

All regular full-time employees of the County of Imperial who work a minimum of 30 hours per week become members of ICERS effective on the first day of the first full pay period after employment. There are separate retirement plans for General and Safety member employees.

Safety membership is extended to those involved in active law enforcement, fire suppression, and certain probation officers. Any new Safety Member who becomes a member on or after January 1, 2013 is designated as PEPRA Safety and is subject to the provisions of California Public Employees’ Pension Reform Act of 2013 (PEPRA), California Government Code 7522 et seq. and Assembly Bill (AB) 197. All other employees are classified as General members. New General Members employed after January 1, 2013 are designated as PEPRA General subject to the provisions of California Government Code 7522 et seq. and AB 197.

General members hired prior to January 1, 2013, are eligible to retire once they attain the age of 50 and have acquired 10 or more years of retirement service credit. A member with 30 years of service is eligible to retire regardless of age. General members who are first hired on or after January 1, 2013, are eligible to retire once they have attained the age of 52, and have acquired five years of retirement service credit.

County of Imperial
Notes to the Basic Financial Statements

(Dollars in Thousands)

Safety members hired prior to January 1, 2013, are eligible to retire once they attain the age of 50 and have acquired 10 or more years of retirement service credit. A member with 20 years of service is eligible to retire regardless of age. Safety members who are first hired on or after January 1, 2013 are eligible to retire once they have attained the age of 50, and have acquired five years of retirement service credit.

The retirement benefit the member will receive is based upon age at retirement, final average compensation, years of retirement service credit and retirement plan and tier.

Employees terminating before rendering five years of service forfeit the right to receive benefits but may withdraw their contributions and accumulated interest. Employees terminating after five years of service may elect to leave accumulated deposits in the Plan and receive benefits at the time of normal retirement.

Death and Disability Benefits

Upon the death of an active employee, a death benefit, equal to the deceased member's accumulated contributions and interest, plus 1/12th of the deceased's final year's salary, multiplied by the number of completed years of service, but limited to 1/2 annual salary, is paid to beneficiaries. Upon the death of a qualified member, the surviving spouse, as an option, may receive an annual allowance of 60 percent of the member's retirement allowance as of the date of death. The death of a member due to service-connected injury or disease entitles the decedent's surviving spouse or child under 18 years of age to receive an annual allowance equal to one-half the member's final compensation. In addition, the beneficiary of a retiree who dies after retirement while receiving an allowance from the Retirement System, is paid a death benefit of \$5.

An active employee becoming totally disabled as a result of a service-connected injury or disease is paid an annual allowance of the larger of 50 percent of the employee's compensation, or the normal retirement benefits accumulated by the member as of the date of disability. An active employee who is totally disabled because of a non-service connected disease or injury, receives all vested retirement benefits accumulated as of the date of the disability.

Contributions

As a condition of participation, employees are required to contribute a percentage of their annual compensation to the Retirement System.

The total covered payroll of employees participating in the Retirement System for the year ended June 30, 2015 was \$112,465. The total County payroll for the year was \$119,002. The total contribution to the Retirement System for 2015 of \$29,787 was made in accordance with actuarial determined requirements computed through an actuarial valuation performed as of June 30, 2015. The County's contribution was \$18,459. Employee contributions were \$11,328. The amortization period of the unfunded actuarial liability is based on an initial amortization period of 24 years.

County of Imperial
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015
(Dollars in Thousands)

The County's contributions to the Plan, based on actuarial determined percentage of payroll costs, together with employees' contribution, are intended to provide defined benefits when employees retire. This contribution includes amortization of past service costs over 30 years.

The County's annual pension cost and net pension obligation to the Imperial County Employees' Retirement System for the current and six proceeding years is as follows:

<u>Fiscal Year</u>	<u>Annual Required Contribution (ARC)</u>	<u>Percentage of ARC Contributed</u>

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2015, the County reported a liability of \$55,847 for its proportionate share of the net pension liability. Of this amount \$55,560 are reported in the Government-wide Statement of Net Position and \$287 are reported in the Statement of Fiduciary Funds of Net Position. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At June 30, 2014, the County's proportion was 95.103%, which was an increase of 0.783% from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the County recognized pension expense of \$12,602. Of this amount \$12,537 are reported in the Government-wide Statement of Activities and \$65 are reported on the Statement of Changes in Fiduciary Net Position. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits.

Actuarial Assumptions

The Total Pension Liability (TPL) as of June 30, 2014 was remeasured by revaluing the TPL as of June 30, 2013 to include the following actuarial assumptions that the Retirement Board approved for use in the pension funding valuation as of June 30, 2014 and using this revalued TPL in rolling forward the results from June 30, 2013 to June 30, 2014:

Inflation	3.25%
Salary increases	General: 4.75% to 7.75% and Safety: 4.75% to 11.75%, varying by service, including inflation.
Investment rate of return	7.50%, net of pension plan investment expense
Administrative expenses	1.20% of payroll allocated to both the employer and member based on the components of the total contribution rate for the employer and member
Other assumptions	See analysis of actuarial experience during the period July 1, 2010 through June 30, 2013

County of Imperial
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015
(Dollars in Thousands)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. Equity	24%	6.03%
Small Cap U.S. Equity	10%	6.66%
Developed International Equity	16%	6.87%
Emerging Markets Equity	5%	8.13%
U.S. Core Fixed Income	23%	0.89%
High Yield Bonds	2%	2.87%
TIPS	5%	0.19%
Real Estate	5%	5.08%
Commodities	5%	4.16%
Private Equity	5%	8.10%
Total	100%	

Discount rate

The discount rates used to measure the Total Pension Liability (TPL) were 7.50% and 7.75% as of June 30, 2014 and June 30, 2013, respectively. For plan member contributions, the projection of cash flows used to determine the discount rate assumed employee contributions will be made at the current contribution rate for the Regular and PEPRA benefits and that the contributions will be made at rates equal to the actuarially determined contribution rates for the Supplemental benefits. For employer contributions, the projection of cash flow used to determine the discount rate assumed employer contributions will be made at rates equal to the actuarially determined contribution rates.

For this purpose, only employee and employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, the Pension Plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL as of both June 30, 2014 and June 30, 2013.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's share of the net pension liability calculated using the discount rate of 7.50%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)

Note 11 - Other Postemployment Employment Benefits (OPEB)

Plan Description: Imperial County is a participant in the Imperial County Employees Retirement System (ICERS), a cost sharing multiple-employer defined benefit public employee retirement system. ICERS provides retirement benefits only. However, County retirees who retire directly for the County are eligible for health coverage in the County self-funded health plans if they meet certain age and service eligibility requirements. The County's self-funded medical and dental plans are administered by Blue Shield of California. In addition, the County contracts with Dental Health Service and Vision Service Plan (VSP) for dental and vision benefits. Retirees may elect to cover spouses in their medical, dental, and vision coverage, However, retirees would be charged the full premium of spouses' medical, dental, and vision coverage.

Funding Policy: Currently, the County pays for these benefits on a pay-as-you-go basis. The "annual required contribution" presented below is based on claims experience from July 1, 2013 to June 30, 2015.

County of Imperial

Annual OPEB Cost and Net OPEB Obligation: The County's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

	<u>For the Fiscal Year Ending June 30, 2014</u>	<u>For the Fiscal Year Ending June 30, 2015</u>

Note 12 - Commitments and Contingencies

A. Grants

The County recognizes as revenues, grant monies received as reimbursement for costs incurred in certain federal and state programs it administers. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

B. Litigation

The County is a defendant in various lawsuits which arise under the normal course of the operations. In the opinion of County Counsel and management, such claims against the County not covered by insurance would not materially affect the combined financial statements of the County.

C. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has established self-insurance programs for liability, workers' compensation, unemployment, medical malpractice and auto liability.

The liability insurance has a self-insured retention per claim of \$200 with excess liability insurance of up to \$25,000 per occurrence being provided by independent carriers. Workers' compensation has a self-insured retention per claim of \$300. Unemployment claims are reimbursed to the State of California for claims paid on behalf of the County. The County has a self-insurance group health program for its employees. The health plan has self-insured retention per claim of \$150. The medical malpractice insurance has a self-insured retention per claim of \$200 with excess liability insurance of up to \$9,800 per occurrence being provided by independent carriers. Auto liability insurance has a self-insured retention per claim of \$200.

The activities related to such programs are accounted for in the Loss Reserve Funds (Internal Service Funds). Revenues are primarily provided by other County funds and are intended to cover self-insured claims liabilities, insurance premiums and operating expenses. County officials believe that the assets of the Loss Reserve Funds, together with funds to be provided in the future, will provide adequate resources to meet the County's self-insured claim liabilities as they come true.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claim liabilities are calculated considering the effects of inflation, recent pay-outs and other economic and social factors. Changes in the balances of claims liabilities during the past year are as follows:

Liability at June 30, 2014	\$ 14,795
Current year claims and changes in estimates	23,181
Claim payments	<u>(21,181)</u>
Liability at June 30, 2015	<u>\$ 16,795</u>

D. Child Support Incentive Funds Audit

On August 15, 2002, the State of California Department of Finance issued an audit report on the Imperial County Child Support Incentive Funds. The report addressed four areas: 1) understatement of excess incentive funds in the amount of \$28, 2) excess incentive encumbrances were overstated by \$2,754, 3) interest earned and unexpended in the amount of \$342 and a credit for (\$24) for disallowed EDP expenditures, and 4) overstatement of excess incentive expenditures in the amount of \$218. On February 21, 2006, a settlement was reached by the County of Imperial and the State of California. The County of Imperial is to pay \$1,350 to the State of California. The payments are to be made in 60 quarterly payments in the amount of \$23 per quarter beginning July 1, 2006.

Note 13 – Fund Balances

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the County is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable Fund Balance** – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.
- **Restricted Fund Balance** – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed Fund Balance** – amounts that can only be used for specific purposes determined by formal action of the County's highest level of decision-making authority (the Board of Supervisors) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned Fund Balance** – amounts that are constrained by the County's intent to be used for specific purposes. The intent can be established at either the highest level of decision making, or by a body or an official designated for that purpose. This is also the classification for residual funds in the County's special revenue funds.
- **Unassigned Fund Balance** – the residual classification for the County's General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Board of Supervisors establishes, modifies or rescinds fund balance commitments and assignments by passage of an ordinance or resolution. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, followed by the unrestricted, committed, assigned and unassigned resources as they are needed.

Budget Comparisons

June 30, 2015

Budgetary Information

In accordance with the provisions of Sections 29000-29143 of the Government Code of the State of California, commonly known as the County Budget Act, the County prepares and adopts a budget on or before August 30, for each fiscal year.

Expenditures are controlled on the object level except for fixed assets expenditures which are controlled on the sub-object level.

Encumbrances, which are commitments related to executor contracts for goods or services, are recorded for budgetary control purposes in the governmental and proprietary fund types. Encumbrance accounting is utilized to assure effective budgetary control and accountability. Encumbrances outstanding at year-end do not constitute expenditures or liabilities. Unencumbered appropriations lapse at year-end and encumbrances outstanding at that time are liquidated at year-end.

Amendments or transfers of appropriations between objects of expenditure within the same department or between departments within any fund must be approved by the County Executive Office.

Supplemental appropriations necessary and normally financed by unanticipated revenues during the year must be approved by the Board of Supervisors. Any deficiency of budgeted revenues and other financing sources over expenditures and other financing uses is financed by beginning fund balances as provided for in the County Budget Act.

The budgetary comparison schedules are presented using the modified accrual basis of accounting. A reconciliation of budgetary information to GAAP information is not needed as there are no differences between the two.

**OTHER SUPPLEMENTAL
INFORMATION**

Non-major Governmental Funds

Special Revenue Funds

Special Revenue Funds account for revenues derived from specific taxes or other designated revenue sources. Primary revenue sources are: taxes, fines, forfeitures and penalties; use of money and property; aid from other governmental agencies; charges for current services; and other revenues. Expenditures are made only for specific activities legally authorized to be financed from the individual funds.

Library - The County Library District, serving a population of approximately 45,300, encompasses all of the unincorporated areas in Imperial County and all cities except Brawley, Calexico, El Centro and Imperial. The Library is located in rural El Centro with branches in Calipatria, Heber, Holtville, Niland, Ocotillo, Desert Shores, Salton City, and Westmorland. The Library collection is supplemented in various ways, including participation with the Serra Cooperative Library System in San Diego and Imperial Counties. Inter-library loan service is available with local libraries and other libraries in California and the California State Library.

Fire Protection - The Fire Department is responsible for fire protection only in certain unincorporated areas of the County. To augment its central core of fire-fighting personnel, the County has entered into contractual agreements with incorporated areas near these jurisdictions.

Public Works Roads Fund - This fund was established to provide for maintenance and construction of roadways and for specialized engineering services to other governmental units and the public. Revenues consist primarily of the County's share of State highway user's tax and are supplemented by Federal funds, vehicle code fines, and fees and reimbursements for engineering services provided.

State/Federal Jail Improvement Funds - The State/Federal Jail Improvement funds were created to account for expenditures to improve jail conditions. These expenditures are reimbursed by the Federal Government and by the State Government.

Criminal Justice Facilities Fund - The monies in this fund together with any interest earned thereon may be used for construction, reconstruction, expansion, improvement, operation, or maintenance of County criminal justice and court facilities, and for improvement of criminal justice automated information systems; provided, that in Imperial County, money deposited each year in this fund may also be used for the maintenance, operation, construction, reconstruction, or expansion of County juvenile justice rehabilitation facilities.

Geothermal Administration - This budget unit funds the geothermal related activities within the County Departments. Geothermal administration encompasses reviewing geothermal applications, coordination of geothermal activities, providing information within the industry and to the general public and updating various policies and procedures as they relate to geothermal.

Service Authority Freeway Emergency - This budget unit was established to identify revenues and expenditures for the installation of emergency call boxes on the Imperial County freeway system.

Non-major Governmental Funds

Public Works Solid Waste - This budget unit reflects the cost of the Solid Waste Disposal Program including operation, acquisition, source reduction recycling program, and Closure/Post-Closure requirements. Revenue from user fees, Joint Powers Agreement and charges will be sufficient to make the program fully self-supporting, without a contribution from the County General Fund. The Board established this Special Revenue fund to more accurately reflect the expenditures and revenues associated with the Solid Waste Disposal Program.

AB443 Local Assistance Law Enforcement Grant – This budget unit was established to account for funds received from the State to enhance law enforcement activities in rural and small counties.

Sheriff's Information Technology System – This budget was established to account for activities related to the expenses regarding the modernization of the Sheriff's Department Information Systems.

Federal Asset Forfeiture - In addition to any other fees required by law, a processing fee of eight dollars (\$8) shall be assessed for each disbursement of money collected under a writ of attachment, execution, possession, or sale,. But excluding any action by the district attorney's office for the establishment or enforcement of a child support obligation. The fee shall be collected from the judgment debtor in addition to, and in the same manner as, the money collected under the writ. All proceeds of this fee shall be deposited in a special fund in the county treasury. A separate accounting of funds deposited shall be maintained for each depositor, and funds deposited shall be for the exclusive use of the depositor.

Seventy percent of the moneys in the special fund shall be expended to supplement the county's cost for vehicle fleet replacement and equipment for the sheriff and the marshal. Thirty percent of the moneys in the special fund shall be expended to supplement the county's cost of vehicle and equipment maintenance for the sheriff and the marshal, and for the county's expenses in administering the funds.

No fee shall be charged where the only disbursement is the return of the judgment creditor's deposit for costs.

BioTerrorism Preparedness – This account was established to account for funds dedicated to the preparation of a Bio Terrorism Response plan.

Medi-Cal/CMSP - To separate the Medi-Cal and CMSP revenues and expenditures from our general fund. Per CEO request.

Imperial County Economic Development Funds (ICCED) - The ICCED funds account for revenues and expenditures for various activities and programs including USDA Small Business RLF, ICCED Special Expense Fund, Home Biz Micro-Training, ICCED Micro-Lending Program, USDA POE Waste Water, Gossner Foods, USDA RLF ICCED, ICCED Housing Rehab., Census 2000 County Cost, Heber Housing Rehab. 2000, Ocotillo Housing Rehab., Colonia Technical Asst. Capital Projects Funds

The purpose of these funds are to separately account for major acquisition, construction and additions to County buildings and land other than those financed by Enterprise Funds and Internal Service Funds.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for the payment of principal and interest on the county's pension obligation bonds. There are no combining statements because the County has one Debt Service fund which is reported on the non-major combined financial statements.

Internal Service Funds

Internal Service Funds are established to account for services that are performed by one department of a governmental unit for the benefit of several other departments of the same governmental unit.

Garage Operating – The County Garage is under the direction of the Public Works director and is responsible for the administration and management of the County's fleet of light vehicles. The authority of the County Board of Supervisors leases these vehicles to various County departments to meet their transportation needs. The cost to maintain the garage operation is totally offset by a mileage rate charge to these departments. This budget unit is also used to replace Motor Pool vehicles, which are considered obsolete when they reach mileage or age, which would cause them to become inefficient for continued service.

Central Duplicating – This budget unit was established as an internal service fund to provide printing and duplicating services, with the exception of the Sheriff's Department. Central Duplicating also provides other services such as binding, collating, drilling, folding, laminating, numbering, perforating, padding, cutting, trimming, and designing of printed forms.

Centralized Mail System – This budget unit was created during 1983-84 to identify costs associated with the County's centralized mail system. This system provides for one mail clerk position, as well as the utilization of a digital postage machine. Costs are recovered from departments resulting in a net cost of zero to the general fund. This budget is under the direction of the Purchasing Agent.

Flood Control – This budget unit is created to reflect flood control projects undertaken by the County. The Board of Supervisors approves specific projects.

Communication Services – The Communications Services Office, under the supervision of the County Executive Officer, is responsible for coordinating the delivery of telecommunications products and services for all County departments, and for ensuring that departments receive the mix of products and services that provides the greatest benefit at the most advantageous cost.

Liability Insurance – This fund was established for the processing of claims for the County's liability and property losses. The County is a member of the County Supervisors Association of California – Excess Insurance Authority (CSAC-EIA) which provides for coverage of liability claims in excess of the County's \$200,000 self-insured retention (S-I-R).

Workers' Compensation – This fund was established for the accumulation of reserves to pay for self-funded workers' compensation losses. The level of self-insurance, adopted in 1985-86, is \$300,000 per occurrence. Any losses under this amount are paid from this fund and losses above the amount are covered by excess insurance.

Unemployment Compensation Insurance – This fund was established to pay for required claims as a result of a State mandate effective January 1, 1978, which required all local governments to provide for unemployment compensation. Claims management is provided by Gibbens Company.

Health Plan – The Imperial County Health Plan became operational January 1, 1980. It is a self-funded, self-sustaining program of employee medical benefits, funded by the County and employee contributions, which are determined by negotiations and based on expenditure history. Retirees of Imperial County also qualify for coverage and are provided protection by contract with the Retirement Board.

Dental/Vision Plan – This fund was established in 1985-86 for the accumulation of reserves to pay for self-funded Dental/Vision claims.

Internal Service Funds

Medical Malpractice – This fund was established in 1992-93 to provide for the accumulation of reserves for the County self-insured Medical Malpractice Program. Stop loss insurance provides protection for excessive claims expense.

Auto Plan – This fund was established in 1992-93 for the accumulation of reserves to pay for self-funded auto claims.

Information Systems – This fund provides computer hardware and software related expertise including operational planning and support to all County departments. One of the department's objectives is to ensure that state-of-the-art technology will guide the County into the future. The budget unit was established to account for the development of new systems, the maintenance of existing systems and operation of the computer center as an Internal Service Fund. This budget includes a \$50,000 contingency reserve for equipment replacement reserve.

Workers Comp Court Tail Claims – This fund was established to track workers compensation claims for court employees prior to the Courts separation from the County.

Notes:

- (1) Trend information is available only for the last eight fiscal years due to the implementation of GASB 34.
- (2) Accounting standards require that net position be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net position is considered restricted when 1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments or 2) imposed by law through constitutional provisions or enabling legislation.

Notes:

- (1) Reliable data is available only for the last eight fiscal years.
- (2) Secured property is generally real property, defined as land, mines, minerals, timber, and improvements such as buildings, structures, crops, trees, and vines.
- (3) Unsecured property is generally personal property including machinery, equipment, office tools, and supplies.
- (4) Exempt properties include numerous full and partial exclusions/exemptions provided by the State Constitution and the legislature that relieve certain taxpayers from the burden of paying property taxes.
- (5) Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the base for valuation of property subject to taxes at the full cash value which appeared on the Assessor's 1975/76 assessment roll. Thereafter, full cash value can be increased to reflect:
- a) annual inflation up to 2%; or
 - b) market value at the time of ownership change; or
 - c) market value for new construction

Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
County of Imperial, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Imperial, California, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County of Imperial's basic financial statements and have issued our report thereon dated March 29, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Imperial's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Imperial's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Imperial's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Imperial, California's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE, AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
County of Imperial, California

Report on Compliance for Each Major Federal Program

We have audited the County of Imperial's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of County of Imperial's major federal programs for the year ended June 30, 2015. The County of Imperial's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Imperial's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Imperial's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County of Imperial's compliance.

Opinion on Each Major Federal Program

In our opinion, the County of Imperial complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the County of Imperial is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Imperial's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not

for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Imperial's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB A-133

We have audited the financial statements of the County of Imperial as of and for the year ended June 30, 2015, and have issued our report thereon dated March 29, 2016, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
